"BAILEYS"

Bedsprings

To have it in mind to purchase a bedspring, and not at once think of "BAILEYS" is about impossible in these Islands. In addition to the superb Woven Wire Springs with all steel supports we are now manufacturing the celebrated "National" all Steel Springs and Cots, Hospital Beds and Bunks. We use always Galvanized Wire that is made especially for us by the American Steel & Wire Co. Carefully avoiding freaks and fads in Springs we have a line of these articles that cannot be matched anywhere.

PLANTERS' PARLIAMENT
AND BUSINESS GENERALLY

This week was signalized by one of the biggest events on the Hawaiian calendar--the annual meeting of the Hawaiian Sugar Planters' Association. It opened on Monday morning and concluded with a banquet on Thursday night. About fifty members were present at the sessions, which were occupied with the reading and discussing of reports of standing committees on different matters of cultivation and manufacture, and the hearing of addresses by experts employed at the association's experiment station. Among the latter was an informing treatise on fertilizers by Prof. S. S. Peck, who emphasized the importance of the subject with the remark that the planters were annually using 50,000 tons of mixed fertilizers, at a cost of between two and three million dollars. Dr. Harold L. Lyon gave an address on the fungus that was devastating the eucalyptus trees on Mount Tantalus behind Honolulu, as well as attacking certain fruit trees, removing a popular impression that the dying of the trees was caused by drought. Visits were paid to the sub-station on Oahu plantation, where a large area is devoted to cane-cultivating experiments, also to the main experiment station in town with its cultures and labor stores, as well as the Federal experiment station. On the closing day the meeting discussed the labor situation behind closed doors, but it is learned that no action was taken tending toward any change in policy with regard to the labor supply. The planters will continue to receive the best labor elements available through their own efforts and the immigration service of the Territory.

Some interesting land deals were reported this week. Through J. W. Pratt's agency James A. Wilder, artist, bought from H. Rahim, an East Indian living at Vancouver, a beautiful scenic tract containing nine and one-half acres, overlooking Nuuanu valley, for the sum of \$7000 net to the buyer. Mr. Pratt also effected the sale of the Dayton homestead on Liliha street, containing one and one-half acres, by Mrs. David Dayton to Mrs. Percy M. Pond for \$7000 net to the seller. The Bank of Hawaii sold to Hans Charles Engalla a lot containing 12,200 square feet, on the mauka side of Lunalihi street, for \$4250. Judge Sanford B. Dole sold to William Barker Lymer a piece of land with a frontage of 150 feet on Puunui street and containing 30,000 square feet, for \$2100. The old Campbell homestead on Nuuanu street with contents of rare old furniture and articles of vertu, will be sold at auction on December 31. The premises are valued at \$50,000. A. F. Judd, manager of the real estate department of the Guardian Trust Co., has denied a rumor that the McCully tract had been sold by that company, which bought it under foreclosure a short time ago.

Statistics presented at the planters' convention show the sugar crop of the past season by islands as follows: Hawaii, 209,920 tons; Maui, 148,585 tons; Oahu, 139,712 tons; Kauai, 97,041 tons; total, 595,258 tons. The crop of 1903 was 437,991 tons, but it was less in each of the three following years.

STOCKS FAIRLY STEADY
WITH DECREASED BUSINESS

With a decline of nearly eleven thousand dollars in the business of the Honolulu stock and bond exchange for the six days in session up to noon yesterday, as compared with the business for the five session days ended a week previous, prices of stock have been very fairly maintained, considering the unsettled prospects of the sugar industry for the ensuing year. Of eleven sugar stocks dealt in, five are unchanged from a week ago while six show declines. The declines scarcely more than represent the fluctuations to be expected at such a time. Of three non-sugars, two have declined and one advanced, but in the case of one decline, that of Oahu Railway, the asking price has not been changed.

Opening and Closing.
Last sale prices on Saturday of last week and Thursday of this week are respectively as follows: Ewa, 27 and 27; Hawaiian Commercial, 34.50 and 34; Hawaiian Pineapple, 44.25 and 44.75; Hawaiian Sugar, 36.50 and 35.75; Honokaa, 8 and 8; Honolulu Brewing, 21.50 and 21.62 1/2; Kahuku, 15 and 14; McBryde, 5 and 5; Oahu Railway, 150 and 145; Oahu, 25 and 24; Olua, 5 and 5; Onomea, 31.75 and 31; Pioneer, 26 and 26; Waialua, 100 and 98.50.

The estimate for the year for Pahang was 60,000 pounds, and that for Tanjong Olok 55,000, so that the December tapping on Pahang only needs to yield an increase of about 700 pounds to reach the estimate, while Tanjong Olok by equaling the November yield in December will exceed the estimate by more than a ton.

A cablegram to Alexander & Baldwin received after the Star-Bulletin went to press yesterday afternoon stated that Himely, a leading expert, had estimated the Cuban crop at 2,328,000 tons, or nearly a third of a million over any previous estimate. Breckons early next year, and Attorney Lorrin Andrews will form a law partnership firm, establishing offices in the location on Merchant street formerly occupied by Castle & Withington, under the name Andrews & Quarles.

SOLDIERS WITHDRAWN
FROM BEET FIELDS

Latest European reports are favorable to crop gathering, but inasmuch as both Austria and Russia have mobilized largely the help of soldiers in the beet fields has been withdrawn, and the beet remaining in the fields may suffer thereby.

There is nothing abroad to disturb the even tenor of the markets, however, and price fluctuations are virtually nothing, the opening and the closing of beet sugar of November being at 9s. 5 1/4-d., with lowest 9s. 4 1/2-d. Futures show a little tendency to decline towards 9s. as is expected by some European houses before final improvement sets in. Willett & Gray's Journal, Nov. 21.

No written invitations will be issued, but all will be welcome. A fine but short program has been arranged to follow the reception, and refreshments will be served by the ladies of the Guild. Kaa's quintet club will furnish music during the evening, and dancing will be in order for the younger folks.

NEED WOOD ON COAST.

W. H. McInerney, who arrived yesterday on the Mongolia after an absence of several weeks on the coast, believes that Secretary Wood, of the promotion committee, should go to the mainland for the purpose of heading tourists toward Honolulu. As far as the advertising in the islands is concerned, he says, it is coming along all right, but he thinks that Secretary Wood is needed there to stir the people up.

BY AUTHORITY.
NOTICE TO THE PUBLIC.

The Board of Supervisors will hold a meeting in the Assembly Hall, McInerney Building, corner of King and Fort Streets, Monday, December 9, 1912, at 7:30 p. m., at which time discussions on Bill No. 53, being a new Plumbing Ordinance, will be heard. SPORTS

FIVE YEARS OF
STRAIGHT WINS

SEATTLE, November 29. -- During the Northwest conference football season which ended yesterday with the game between the University of Washington and Washington State College, the university scored a total of 82 points against a total of 17 made by the opposing teams. The scores in the four games were: Washington, 24; Idaho 0. Washington, 9; Oregon Agricultural College, 3. Washington, 30; University of Oregon, 14. Washington, 19; Washington State College, 0.

During the season Washington depended almost entirely on straight football, seldom resorting to the forward pass and until yesterday doing little punting. In the Oregon game two weeks ago, a weakness in Washington's defense was developed when Oregon made two touchdowns in the last period by brilliant use of the forward pass.

When the State College team began using the forward pass yesterday the Washington supporters were nervous, but the manner in which the university men broke up the plays soon demonstrated that Gilmore Doble, the former Minnesota star who has been coach at the University of Washington during the five years that it has not suffered a single defeat, had thoroughly trained his men in blocking such plays.

The receipts at yesterday's game break all local records, \$7,000 having been taken in at the box office. The previous record was \$5,200.

"PORK AND BEANERS" REVOLT--PRELIM. FIGHTERS IN UNION

LOS ANGELES.--No more starvation wages for the lowly "prelim" fighter, for he will soon have the grinding oppressor in the form of a light promoter at his mercy. That class of fisticuff exponents known as "pork and beaners," in which class nearly all extolled champions once paraded their prowess at the price of a good dinner to furnish amusement for the spectators while awaiting the well-advertised "main event," has organized a union in Los Angeles. It will have the highest wage scale of any union in existence. "Billy" Huddy of a local athletic club where fighters train is the moving spirit and thus far has signed up sixty-seven members. He expects to sign at least thirty-five more "prelim" fighters before closing the roster. Then, according to his announcement today, he will demand a minimum of \$35 as compensation for getting mauled for four rounds.

W. O. FRANKLIN WON BY A SAFE MARGIN

The following account of how W. O. Franklin of this city clinched the billiard championship of the islands at Hilo recently appears in the Hawaii Herald:

Scoring 300 while his opponent made 218, W. O. Franklin, agent for the Brunswick-Balke company, now

holds the title of amateur billiard champion of the territory and is open to accept challenges from any aspiring billiardist. K. L. Andrews, assistant bookkeeper of the Hilo Sugar Co., made a hard try to retain the title in Hilo, but he could not manage to hold the older and more experienced player.

Franklin took 99 innings to make his 300 and made one run of 22. This run was beaten by Andrews, who replied with a 23. The game was played at Frank Metcalf's and a 14.2 ball line was used. Metcalf acted as referee and H. M. Leonard as scorer. The game was watched by a number of billiard enthusiasts and the greatest interest was evinced.

STOVALL WILL MANAGE ST. LOUISANS NEXT YEAR

LOS ANGELES, November 29.--Robert Lee Hedges, president of the St. Louis American League team, who is in Los Angeles, announced today that George Stovall would continue to act as manager of that club.

Hedges in thus disposing of the rumor that he had attempted to secure Roger Bresnahan, deposed manager of the St. Louis Nationals, for manager of the Browns, declared he was thoroughly satisfied with Stovall's work.

Hedges admitted he had tried hard to obtain Bresnahan's services, but as a catcher, not in a managerial capacity at all. He added, however, that Bresnahan was not in a position to leave the National League.

ALLEYS FOR HILO.

That within the next two months Hilo is to have a first-class bowling alley and thus join in the movement that has swept the other islands like wildfire is the statement made by one of those interested in the scheme. There will be a pair of alleys placed in town which will be fitted up with every modern convenience and also with sets of the pin setters that have given so much satisfaction at the Y. M. C. A. in Honolulu.--Hawaii Herald.
